

The Chamber has partnered with YouScience, an innovative aptitude and career discovery tool designed to prepare students and young adults, empower educators, and inform administrators.

Why should a business engage with this platform?

- **Be Discovered.** Upon completion of the assessment, individuals can explore opportunities with organizations that match their unique skill set. Create an employer profile to be discovered.
- **Keep Talent Local.** YouScience is utilized all over the country, but it is designed to showcase local organizations first.
- **Engage with Talent.** YouScience helps students and young adults engage in experiential learning opportunities. Set up an employer profile to engage with talent sooner.
- **Build Community.** Let's work together and create alignment through a unified talent solution.

How do I create a free employer profile?

- 1** Go to employers.youscience.com.
- 2** Click the 'Create an account' link to get started with a Workforce signup.
- 3** Complete the required fields and agree to the Terms of Service to set up your account.
- 4** You will receive an email from YouScience to verify the account. Click that to complete your account setup.
- 5** Return to the login page and enter your email and password to sign in and view your employer homepage.
- 6** Click 'Manage Your Profile' to post information for students and educators to see, including your organization, your website and social media links, work-based learning opportunities or internships you offer, and the kinds of careers and entry-level jobs you value.

What else can I do?

Your employer profile is always free, but there are premium options that provide greater visibility and information. Contact the Chamber at careercenter@westcoastchamber.org to learn more.

Welcome to YouScience!

In partnership with the West Coast Chamber

Here's what you need to know:

- You'll receive an invitation from YouScience to create your account.
- To take the assessment, click "Aptitude & Career Discovery" and then "Discover aptitudes".
- The assessment takes 90 minutes and is divided into 11 short sections. Each segment clearly states how long it will take.
- Some people find that breaking up the assessment into a few sections at a time helps. Take it at whatever pace feels natural for you.
- Be prepared to be in a quiet space with no distractions.
- Some of the brain games may be difficult or frustrating, that's ok. Don't be hard on yourself, the point is to see how your brain processes information.
- Take time to review your results and explore potential career pathways. You'll learn something new about yourself along the way!

Why take this assessment?

- Learn how you are uniquely wired based on a series of brain games that measure your aptitudes, not simply your interests.
- Aptitudes are not the same as interests, personality, or learned skills—which are all environmentally dependent and change over time. This assessment evaluates your natural abilities, strengths, and potential areas for improvement. YouScience is an aptitude and career assessment wrapped into one.
- Your results will be personalized to **you** and will connect you with potential career and educational pathways, and even job opportunities.
- This resource will help you tap into your full potential and may help you discover opportunities you didn't even know existed.
